MEMORANDUM FOR: Chief, Management Staff

SUBJECT: Management Survey of Administration
Building Printing Plant

25X1A9a 1. I have read the subject Management Survey with great interest and would like to take this opportunity to commend [REDACTED] for the professional and technical excellence of their work. I was particularly impressed by the sure grasp they displayed of the complex and ramified aspects relating to the coordination and production of the interagency NIS program. 25X1A9a and [REDACTED] not only versed themselves in the intricacies of NIS production relationships but achieved a fluency in expressing them that is unusual in persons not immediately and continuously associated with the program.

25X1A9a 2. I should be glad to have this letter made a part of their official personnel record.

25X1A9a

[REDACTED]
Assistant Director
Basic Intelligence
